

East- Lombok; Sasak traditions

In East-Lombok the traditions of the Sasak, the original population, are still very much alive.

During this trip you don't just witness a number of interesting and non-touristic handicrafts, we enjoy a real Sasak-lunch and see an original Sasak-dance, that is witnessed by the whole village.

From Senggigi we drive via a local colourful market to East-Lombok. Here we visit a small-scale bamboo-workshop and we can see how the famous Lombok-pottery is made.

In a weaving village a delicious lunch is prepared and after that there is time to look around and see for yourself how these colourful fabrics are woven in the homes of the people.

In the afternoon a very special dance is staged for us. We will be greeted as special guests in the village and almost everybody will join us to watch.

After this we drive back to Senggigi in around two hours.

You can combine this tour with a stay in a hotel in Tetebatu.
