

South Lombok; Kuta

The south of Lombok has arguably the best beaches.

Because they consist of tiny coralballs they are dazzlingly white. The beaches enclose beautiful bays with deepblue waters.

This is the best spot on Lombok to surf. The bay of Gerupuk has waves for every level.

Tanjung Aan beach has good snorkelopportunities and is perfect for swimming and lazing as well.

On the way to Kuta we visit Sukarare, where the most beautiful traditional fabrics are woven and Rambitan, a village where many houses are still built in a traditional style.

You can rent a surfboard if you wish and take a surfclass.

At the end of the day we drive back to Senggigi, but of course it is possible to extend your stay by booking an hotel in Kuta. See our hotellist for offerings
